Hi, I'm Alex Pagnotta, a frontend developer from Italy , currently working from home at Extendi.

I enjoy building curated UIs, to offer the best possible experience to the users.

Sometimes I write technical posts on Medium.

Experience

Extendi - Frontend developer •

January 2021 - Present

Currently working on several projects for an important multi-utility company:

- Development and maintenance of the company website, using Gatsby, Contentful CMS and styled components.
- Development of multiple web apps related to the main website, using React and React Query.

I'm also working on the new extendi website, made with NextJS and Tailwind.

IWH - Full Stack developer

June 2019 - January 2021

Full Stack development of web apps, both backend using .Net core and frontend with React.

Costasoft - C# developer

June 2017 - May 2019

Worked as a consultant for a major company in the CNC industry, employed in the development of a suite of 3D desktop apps.
